

April 6, 2011

Welcome

Thank you for attending this public meeting to outline proposals for road naming and house numbering in Oliver.

Decisions Made to Date:

- All addressing will be unique
 - No dual street names (e.g. Black Sage Road and 71st Street)
 - No disjointed streets with the same name
 - Canada Post will eliminate rural route addresses after street names are updated
- House numbers will be shortened to three or four digits across Area C and the Town of Oliver
 - No more 5-digit house numbers
 - North-south addresses will span 5600 to 7200 in Town; 3500 to 9000 in Area C
 - East west addresses will start at 100 near river and increase east and west
- Most Area C roads will revert to their historical names
 - E.g. Black Sage, Sawmill, Road 1, Road 2, etc.
 - There will be some (about 25) adjustments to clarify certain areas.
- Some in-Town streets will revert to historical names
 - Major streets: Fairview, McKinney, Park, Sawmill, Tucelnuit, Black Sage
 - Local streets: Rockcliffe, Panorama, Earle, Bellevue, Spillway, Fir, Pine, Spruce, Walnut
- Other in-Town streets will receive new names
 - Themed neighbourhoods (10 in total)
 - Street names will follow themes to simplify naming and locations

Current Proposal :

- Ten themes have been proposed
 - Details outlined on following pages
- Streets names have been proposed for each themed area
 - See attached map diagrams
- Process has been established to amend names
 - 60% of property owners on a street can petition for name change
 - New names must still fit into the neighbourhood themes
 - Petition form attached
 - Must be completed and returned by **May 6, 2011**

List of neighbourhood themes and sample street names
